## THE GREENEST WORKFORCE JOB MATCH TOOL

### The Greenest Workforce Job Match

**Tool** is a real-time and easy-to-use access point to the wide range of forest products industry jobs. Job seekers can:

- Browse available jobs and set criteria to zero in on those that suit them best.
- Make their profiles part of a Talent Bank that can be browsed by employers.
- Sign up for job matching and be automatically notified of jobs that line up with their qualifications and criteria.
- Get notifications of jobs posted by specific employers.
- Let employers know they have a family member who is also in the job market.

### The Greenest Workforce Job Match

**Tool** is free, and is an excellent addition to other job-search strategies. For many users, a career move into or upward within the forest products industry may be just clicks away.

### MORE THAN JUST MATCHING

Go to the **Labour Market Information** section to create reports on the demand for particular skills in specific locations — both recent trends and forecasts — as well as to find data on current openings. This is high-value information for career advisors and job seekers alike.
